

# **MYSTIFY** COMMANDER

Gaming Headset

## **Better Sound – Faster Reactions!**

The Mystify Commander by TerraTec delivers all the action to your ears. Whether it's a thundering LAN party or restless neighbours: there are plenty of reasons for a powerful sound amplifier. Not to mention the cool sexiness of the aluminum finish – take over, Commander Nico!

This headset is attractive with its ultralight design and wearing comfort coupled with powerful bass, perfectly clear highs and excellent voice reproduction with the adjustable microphone.

The Mystify Commander is extremely light to carry and just as easy to connect. Compatible to all standard sound cards and motherboards, the headset offers absolute freedom from stress, even before the game: connect – sparks fly.

The microphone, which is optimised to suppress unwanted noises (noise cancelling), can be muted as required and is also suitable for reliable P2P communications via Instant Messenger from AIM over ICQ to MSN. The volume controller directly on the cable saves frequent mouse clicking and can still push 112 dB of sound to your ear drums.

Sound, design and technology par excellence – the Mystify Commander is the ultimate headset for enthusiastic gamers and power listeners. Target hit? Over and out.

### **MYSTIFY YOUR GAMES**

Want to squeeze every last drop of performance from your hardware? Push the possibilities of your games to the limit? Then pay attention to this label: "Mystify Your Games". Experience perfectly tuned professional equipment, specially developed for the needs of demanding players.
